Crop County Estimates Released

The Colorado Field Office of USDA's National Agriculture Statistics Service (NASS) announces the publication of 2010 county estimates of acreage and production for the major crops in Colorado. The estimates are published on the NASS website, www.nass.usda.gov, under Quick Stats, State and County Data. County estimates for additional states are also available.

County estimates for small grains, including wheat and barley, were published on February 18, 2011. Row crops such as corn, sorghum, and sunflowers were released February 28, 2011. NASS will publish county estimates for hay on April 15, dry beans and sugarbeets on July 1, and potatoes on October 7. County estimates for Cattle will be published on May 6.
